- LED TOUCH CONTROL PANEL
- LED INNER LIGHTING
- PCI FRESH ROOM
- ECO BUTTON TO REDUCE ELECTRICITY CONSUMPTION

This No-Frost Top Freezer Refrigerator has a total net capacity of 583 litres. This series comes in a revolutionary design, complemented with a smooth glass door finish and LED touch control panel. The energy efficient LED lamps with 'diamond-cut' finish evenly light the appliance's interior. Thanks to the intelligent hybrid cooling system, foods keep their natural texture for longer without drying out. The Plasmacluster technology also reduces the spread of specific moulds, thereby improving the hygiene inside the refrigerator. The integrated Nano Deodorizer completes the refrigerator's interior hygiene by minimising unpleasant odours.
